ARIZONA BOARD OF APPRAISAL

IN THE MATTER OF:

SCOTT A. GARY
Certified Residential Appraiser
Certificate No. 21104

CASE NOS. 2926, 2927, 2928, 2929 and
2930

**CONSENT AGREEMENT
AND ORDER OF DISCIPLINE**

In the interest of a prompt and judicious settlement of the above-captioned matters before the Arizona Board of Appraisal ("Board") and consistent with public interest, statutory requirements and responsibilities of the Board, and pursuant to A.R.S. § 32-3601 *et seq.* and A.R.S. § 41-1092.07(F)(5), Scott A. Gary ("Respondent"), holder of certificate no. 21104 and the Board enter into this Consent Agreement, Findings of Fact, Conclusions of Law and Order ("Consent Agreement") as the final disposition of this matter.

On April 22, 2011, the Board held an Informal Hearing to discuss case nos. 2926, 2927, 2928, 2929 and 2930. Respondent appeared personally and on his own behalf. At the conclusion of the Informal Hearing, the Board voted to offer the Respondent a Consent Agreement and Order of Discipline in lieu of further administrative proceedings.

JURISDICTION

1. The Arizona State Board of Appraisal ("Board") is the state agency authorized pursuant to A.R.S. § 32-3601 *et seq.*, and the rules promulgated thereunder, found in the Arizona Administrative Code ("A.A.C." or "rules") at R4-46-101 *et seq.*, to regulate and control the licensing and certification of real property appraisers in the State of Arizona.

2. Respondent holds a certificate as a Certified Residential Appraiser in the State of Arizona, Certificate No. 21104 issued on February 3, 2004, pursuant to A.R.S. § 32-3612.

1 **CONSENT AGREEMENT**

2 Respondent understands and agrees that:

3 1. The Board has jurisdiction over Respondent and the subject matter pursuant
4 to A.R.S. § 32-3601 *et seq.*

5 2. Respondent has the right to consult with an attorney prior to entering into
6 this Consent Agreement.

7 3. Respondent has a right to a public hearing concerning this case. He further
8 acknowledges that at such formal hearing he could present evidence and cross-examine
9 witnesses. Respondent irrevocably waives his right to such a hearing.

10 4. Respondent irrevocably waives any right to rehearing or review or to any
11 judicial review or any other appeal of this matter.

12 5. This Consent Agreement shall be subject to the approval of the Board and
13 shall be effective only when signed by the Executive Director and accepted by the Board.
14 In the event that the Board does not approve this Consent Agreement, it is withdrawn and
15 shall be of no evidentiary value and shall not be relied upon nor introduced in any action
16 by any party, except that the parties agree that should the Board reject this Consent
17 Agreement and this case proceeds to hearing, Respondent shall assert no claim that the
18 Board was prejudiced by its review and discussion of this document or any records
19 relating thereto.

20 6. The Consent Agreement, once approved by the Board and signed by the
21 Respondent, shall constitute a public record which may be disseminated as a formal
22 action of the Board.

23 **FINDINGS OF FACT**

24 **2926**

25 On or about November 24, 2010, the Board's investigation revealed the following:
26

1 1. This matter deals with an appraisal conducted and report written by
2 Respondent of a single family residence located at 12083 East Pot O Gold Trail,
3 Florence, AZ 85132 with an effective date of value of October 11, 2007.

4 2. The Respondent seemingly ignored several sales of acreage properties
5 within Pinal County that would have been logically deemed appropriate to consider and
6 analyze. Omission of these sales would, without consideration and discussion, logically
7 result in misleading the client and intended user of the appraisal report. A possible
8 explanation for the omission of this data may lie in the fact that the Respondent's search
9 for comparable data was impacted by the fact that one search parameter was to locate
10 sales that sold for over \$550,000. None of the acreage sales in Pinal County sold for over
11 \$550,000. Failing to analyze readily available Pinal County acreage sales impacts the
12 credibility of the conclusion of market value.

13 3. The appraisal report omits discussion and analysis of land value from the
14 immediate area of the subject property and area of the comparable sales used for
15 comparison to the subject site. The land value component of the subject property value,
16 as appraised, represented 41.88% of the total opinion of market value. A discussion and
17 analysis of land value leading to the conclusion of the site value and the adjustment
18 between the comparable sales and the subject regarding land value would be considered
19 necessary under the Scope of Work Rule. Similarly, an analysis of sales seemingly
20 similar properties from Pinal County would also be considered appropriate.

21 4. The Appraisal uses an average quality Replacement Cost New figure of
22 \$126.05. The average quality Replacement Cost New, as of the third quarter 2007, would
23 have been, according to Marshall & Swift Residential Cost Handbook, approximately
24 \$72.20 per square foot, including fireplace and built-in appliances. The Replacement Cost
25 New of the garage would have been approximately \$18.75 per square foot, not \$34 per
26 square foot, as was used in the appraisal report. While the Respondent gives secondary

1 support to the Cost Approach, it is important to be accurate in the information provided to
2 the client and the intended user.

3 5. The subject property, according to information available in Pinal County
4 records, sold on November 13, 2007. The appraisal report was dated October 11, 2007. It
5 is logical that the subject property would have been, at a minimum, for sale at the time of
6 appraisal, and may possibly have been under contract at the time of appraisal. If listing
7 information is unavailable or unattainable, Standards Rule 2-2(b)(viii) requires an
8 appraiser to make a statement on the efforts undertaken to obtain such information. If
9 such information is irrelevant, a statement acknowledging the existence of the
10 information and citing its lack of relevance should be included in the report.

11 6. According to Pinal County records, there had been two sales of the subject
12 property (contained within larger parcels) during 2007. In addition, the appraisal report
13 does not discuss the transfer of the property with a recording date of November 14, 2007
14 for \$330,000.

15 7. The appraisal report states that the subject property would have public
16 water, however based on available information there is no public water source available
17 at this location.

18 8. Additionally, the appraisal report does not provide any information or
19 statement on roadway surfacing. It could not be confirmed that there was ever an
20 intention to hard surface the roadway. Also, stating that location of the subject property is
21 suburban would be misleading to the client/intended user of the appraisal report.

22 9. The Respondent failed to maintain a "true copy" of the appraisal report in
23 his records as required given that the copy he gave to the Board differed from the one
24 supplied by the Complainant.

25 10. The Respondent also compared comparable data to the subject property that
26 knowledgeable peers would not consider remotely comparable to the subject property as

1 considerably more comparable data was available for consideration for comparison to the
2 subject property but was not considered by the Respondent.

3 2927

4 On or about November 24, 2010, the Board's investigation revealed the following:

5 11. This matter deals with an appraisal conducted and report written by
6 Respondent of a single family residence located at 12321 East Pot O Gold Trail,
7 Florence, AZ 85132 with an effective date of value of June 23, 2009.

8 12. The Respondent seemingly ignored several sales of acreage properties
9 within Pinal County that would logically have been deemed appropriate to consider and
10 analyze. Omission of these sales would, without consideration and discussion, logically
11 result in misleading the client and intended user of the appraisal report. The Respondent's
12 workfile showed no indication of consideration of any other sales in addition to the three
13 sales used in the appraisal report. Failure to analyze readily available Pinal County
14 acreage sales impacts the credibility of the conclusion of market value.

15 13. The Respondent states the subject property has electricity and public water,
16 however the agent stated that as of the date of sale in 2010, subsequent to the date of
17 appraisal, the subject property did not have power or a well. The Respondent states in his
18 Reply letter to the Board "...were done as Drive-By Appraisals which do not include
19 checking the electrical connections to the properties, but making an extraordinary
20 assumption that the connections are completed." While the Respondent makes this
21 statement, the Extraordinary Assumption regarding this item is not found in the appraisal
22 report. Based upon available information, there is no public water source available at this
23 location, nor is there a private water source or electricity at the subject property.

24 14. The Respondent states on Page 1 of the FNMA form, "therefore, an
25 Extraordinary Assumption is made that the interior of the property is in average to good
26 condition based on the condition of the exterior." Condition is not synonymous with

1 completion of the improvement. According to information received during the
2 investigation, the subject property has never been occupied prior to the appraisal. Based
3 on a drive-by, the Respondent would obviously not know if the interior was complete. As
4 a result, an Extraordinary Assumption should have been made regarding the completion
5 of improvements.

6 15. According to information contained in the Pinal County records, the subject
7 property sold on June 30, 2007 (recorded July 31, 2007). The appraisal report was dated
8 June 23, 2009 but Respondent failed to report and analyze this prior sale. Additionally,
9 there had been two sales of the subject property (contained within larger parcels) during
10 2007 that were not reported or analyzed.

11 16. Respondent's statement that the subject's location is "suburban" is
12 misleading.

13 17. Respondent's workfile does not include sufficient supporting information
14 relative to compliance with Standards Rule 1 and 2 as it relates to other data, information
15 and documentation necessary to support the Respondent's opinions and conclusions and to
16 show compliance with the Recordkeeping requirements.

17 18. The Respondent also compared comparable data to the subject property that
18 knowledgeable peers would not consider remotely comparable to the subject property as
19 considerably more comparable data was available for consideration for comparison to the
20 subject property but was not considered by the Respondent.

21

22

2928

23 On or about November 24, 2010, the Board's investigation revealed the following:

24 19. This matter deals with an appraisal conducted and report written by
25 Respondent of a single family residence located at 12003 East Pot O Gold Trail,
26 Florence, AZ 85123 with an effective date of value of June 23, 2009.

1 20. The Respondent seemingly ignored several sales of acreage properties
2 within Pinal County that would logically have been deemed appropriate to consider and
3 analyze. Omission of these sales would, without consideration and discussion, logically
4 result in misleading the client and intended user of the appraisal report. The Respondent's
5 workfile showed no indication of consideration of any other sales in addition to the three
6 sales used in the appraisal report. Failure to analyze readily available Pinal County
7 acreage sales impacts the credibility of the conclusion of market value. An analysis of
8 this data would be necessary to provide a credible assignment result.

9 21. The Respondent states the subject property has electricity and public water,
10 however the agent stated that as of the date of sale in 2010, subsequent to the date of
11 appraisal, the subject property did not have power or a well. The Respondent states in his
12 Reply letter to the Board "...were done as Drive-By Appraisals which do not include
13 checking the electrical connections to the properties, but making an extraordinary
14 assumption that the connections are completed." While the Respondent makes this
15 statement, the Extraordinary Assumption regarding this item is not found in the appraisal
16 report. Based upon available information, there is no public water source available at this
17 location, nor is there a private water source or electricity at the subject property.

18 22. The Respondent states on Page 1 of the FNMA form, "therefore, an
19 Extraordinary Assumption is made that the interior of the property is in average to good
20 condition based on the condition of the exterior." Condition is not synonymous with
21 completion of the improvement. According to information received during the
22 investigation, the subject property has never been occupied prior to the appraisal. Based
23 on a drive-by, the Respondent would obviously not know if the interior was complete. As
24 a result, an Extraordinary Assumption should have been made regarding the completion
25 of improvements.

26

1 acreage sales impacts the credibility of the conclusion of market value. An analysis of
2 this data would be necessary to provide a credible assignment result.

3 29. The Respondent states the subject property has electricity and public water,
4 however the agent stated that as of the date of sale in 2010, subsequent to the date of
5 appraisal, the subject property did not have power or a well. The Respondent states in his
6 Reply letter to the Board "...were done as Drive-By Appraisals which do not include
7 checking the electrical connections to the properties, but making an extraordinary
8 assumption that the connections are completed." While the Respondent makes this
9 statement, the Extraordinary Assumption regarding this item is not found in the appraisal
10 report. Based upon available information, there is no public water source available at this
11 location, nor is there a private water source or electricity at the subject property.

12 30. The Respondent states on Page 1 of the FNMA form, "therefore, an
13 Extraordinary Assumption is made that the interior of the property is in average to good
14 condition based on the condition of the exterior." Condition is not synonymous with
15 completion of the improvement. According to information received during the
16 investigation, the subject property has never been occupied prior to the appraisal. Based
17 on a drive-by, the Respondent would obviously not know if the interior was complete. As
18 a result, an Extraordinary Assumption should have been made regarding the completion
19 of improvements.

20 31. According to information in the Pinal County records, the subject property
21 sold on July 3, 2007. The appraisal report was dated June 23, 2009 but did not report or
22 analyze this prior sale of the subject parcel. Additionally, according to public records
23 there also had been two sales of the subject property (contained within larger parcels)

13 39. According to information in the Pinal County records, the subject property
14 sold on July 31, 2007. The appraisal report was dated June 23, 2009 but did not report or

18 40. Respondent’s statement that the subject’s location is “suburban” would be

20 41. Respondent’s workfile does not include sufficient supporting information
21 relative to compliance with Standards Rule 1 and 2 as it relates to other data, information
22 and documentation necessary to support the Respondent’ opinions and conclusions and to
